

**Message to the Senate Transmitting the Israel-United States Tax Convention Protocol**

*October 19, 1993*

*To the Senate of the United States:*

I transmit herewith for the advice and consent of the Senate to ratification the Second Protocol Amending the Convention Between the Government of the United States of America and the Government of the State of Israel with Respect to Taxes on Income, signed at Washington on November 20, 1975, as amended by the Protocol signed May 30, 1980. The Second Protocol was signed at Jerusalem on January 26, 1993. Also transmitted for the information of the Senate is an exchange of notes and the report of the Department of State with respect to the Protocol.

The Second Protocol further amends the 1975 Convention, as amended by the 1980 Protocol, in large measure to accommodate certain post-1980 provisions of U.S. tax law and treaty policy. The new Protocol also reflects changes in Israeli law and makes certain technical corrections to the Convention that are necessary because of the passage of time. It will modernize tax relations between the two countries and will facilitate greater private sector U.S. investment in Israel.

I recommend that the Senate give early and favorable consideration to the Protocol and give its advice and consent to ratification.

**Statement on Congressional Action on Department of Commerce Appropriations**

*October 19, 1993*

The House/Senate conference decision to bolster the Department of Commerce FY94 budget to \$3.56 billion, a 12.6 percent increase over FY93 levels of \$3.16 billion, represents a vote of confidence in this administration's investment priorities and in the Department of Commerce. The budget increases reflect the increased responsibilities of the Commerce Department under the leadership of Secretary Ron Brown.

Congress' decision hits a home run for this administration's civilian technology and defense conversion policies. It demonstrates the importance of our efforts to promote economic growth through civilian technology and address the aftermath of economic dislocation resulting from the end of the cold war. Their decision affirms our goal of building a stronger, more competitive private sector able to maintain U.S. leadership in critical world markets.
